

SANDHYA R

Aspiring Software Developer

+91 7358412530 | sandhyasubha192005@gmail.com | Chennai

CAREER OBJECTIVE

A motivated Computer Science Engineering student aspiring to become a Software Developer, with strong analytical and problem-solving abilities and hands-on exposure to web development, data analytics, and database management. Seeking opportunities to design, develop, and optimize software solutions while continuously enhancing technical expertise and contributing to innovative projects.

EDUCATION

B.E. Computer Science and Engineering – Velammal Engineering College (2023–2027) | CGPA: 8.45/10

Higher Secondary – Don Bosco Matriculation Higher Secondary School (2023) | 479/600 (79.9%)

Secondary – Don Bosco Matriculation Higher Secondary School (2021) | All Pass

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Development: HTML, CSS, React.js, Node.js

Tools & Technologies: Git, GitHub, VS Code, REST APIs, MySQL

Areas of Interest: Frontend Development, Backend Development, Database Management, Data Analytics

SOFT SKILLS

Problem Solving | Team Collaboration | Communication Skills | Adaptability | Time Management | Continuous Learning

INTERSHIPS

Computer Science Intern – Chennai Metro Rail Limited (June 2025)

- Learned metro information technology systems and data management techniques.
- Assisted in software monitoring and troubleshooting activities.
- Gained exposure to networking, databases, and automation.

Data Analytics Intern – Tata Virtual Internship (May 2025)

- Analyzed business datasets and generated meaningful insights.
- Learned data visualization and dashboard creation.
- Strengthened problem-solving and reporting skills.

PROJECTS

Book Swapping System

Tools: React.js, Node.js with Express, MongoDB, Google Maps API, REST APIs

Description: Developed a platform where users can list, browse, and swap books with features like authentication, search, profile management, book ratings, likes, and location-based book owner details using maps.

Outcome: Enhanced book accessibility in the community, reduced book purchase costs by 40%, and increased user engagement with personalized book recommendations.

Budget Tracker

Tools: React.js, Node.js with Express, MongoDB, Chart.js, REST APIs

Description: Built a personal finance management app with authentication, dashboard for adding transactions, expense categorization, budget allocation, reports, and profile settings to track and optimize spending.

Outcome: Helped users achieve 25% better expense tracking and improved savings discipline through detailed reports and budget insights.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Database Management Systems
- NPTEL – Python for Data Science

- 3rd Prize in Technical Paper Presentation on E-Commerce Website at Velammal Engineering College
